If I had asked people what they wanted, they would have said faster horses. - Henry Ford

Our industry does not respect tradition — it only respects innovation. — @satyanadella

In the near future, new AI-based platforms will disrupt established software too invested in old workflows to keep up." - Eric Elliott

Simplicity is a great virtue, but it requires hard work to achieve it and education to appreciate it. And to make matters worse: complexity sells better. — Edsger W. Dijkstra
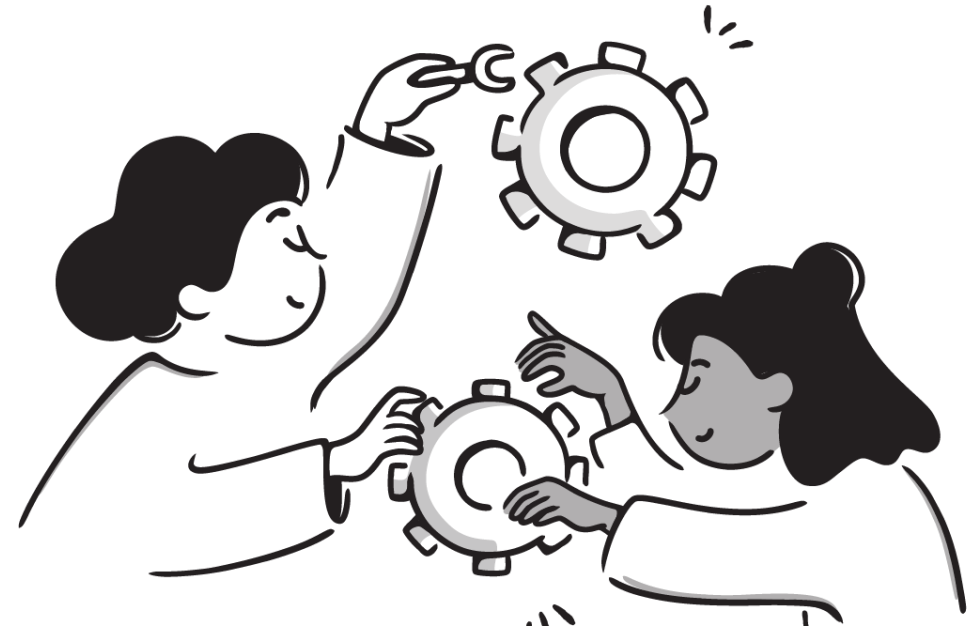

Coding is to Programming what typing is to writing. If people are trying to learn programming by being though to code, ... well ... there're beeing though writing by being though how to type. - Leslie Lamport

Engineering is what happens when things need to live longer and the influence of time starts creeping in.

[Software Engineering = Programming integrated over time]

- Titus Winters / Carmen Andoh
@TitusWinters / @carmatrocity

The best programs are the ones written when the programmer is supposed to be working on something else.
- Melinda Varian

Most of your day-to-day job as a Programmer is shaving yaks - @shanselman

Programs must be written for people to read, and only incidentally for machines to execute.
— Harold Abelson

The most damaging phrase in the language is: 'It's always been done that way.' — Grace Hopper

First, solve the problem. Then, write the code.
— John Johnson
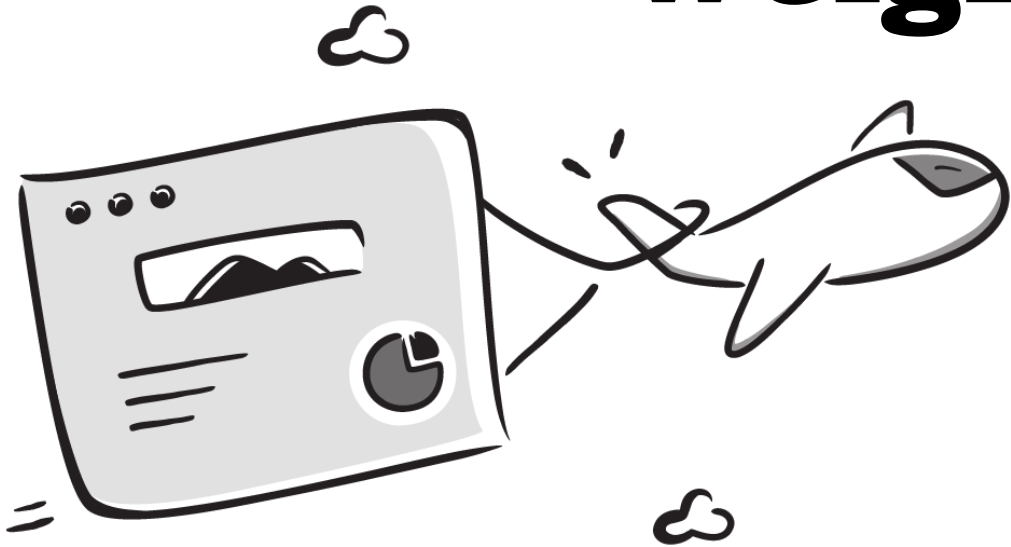

Innovation is saying 'no' to 1,000 things. — Steve Jobs

Any fool can write code that a computer can understand. Good programmers write code that humans can understand.
— Martin Fowler

The purpose of abstraction is not to be vague, but to create a new semantic level in which one can be absolutely precise. — Edsger W. Dijkstra

Measuring programming progress by lines of code is like measuring aircraft building progress by weight. — Bill Gates
